

BISHWAJEET GUPTA

Senior UI/UX Designer | CRM & Dashboard Specialist | AI-Assisted Design | Figma, WordPress, Shopify

Noida, Uttar Pradesh, India | 9509434642 | bishwajeetgupta2@gmail.com | linkedin.com/in/bishwajeetgupta-03531b6b

PROFESSIONAL SUMMARY

Senior UI/UX Designer with 7+ years of experience designing CRM dashboards, admin panels, and high-converting websites for enterprise, government, and international clients. Skilled at translating complex business requirements into clean, intuitive interfaces in Figma, designing developer-ready UI and component specs for React JS applications, and personally delivering production-ready implementations in HTML, WordPress, and Shopify. Stays current with AI-assisted design workflows (Figma Make, Claude for Design, Google AI Studio) to speed up ideation and prototyping. Strong background in user flows, wireframing, design systems, component libraries, and responsive design, with a track record of improving usability and business performance through design.

CORE SKILLS

- AI-Assisted Design & Prototyping: Figma Make, Claude for Design, Google AI Studio
- Usability & UX Optimization, User Flows & Wireframing, Design Systems & Component Libraries
- Figma to React JS (UI & Component Design), Figma to Shopify, Figma to WordPress, Figma to HTML
- Front-End Implementation: HTML5, CSS3/SCSS, JavaScript, jQuery, Bootstrap
- CMS & E-commerce Platforms: WordPress (Elementor), Shopify
- Responsive & Cross-Browser Design, PSD to HTML
- Tools: Figma, Photoshop CS6, Visual Studio Code

PROFESSIONAL EXPERIENCE

Senior UI/UX Designer — E2logy Software Solutions Pvt. Ltd.

May 2023 – Present

Noida, Uttar Pradesh, India

- Own UI/UX design for CRM dashboards and enterprise web applications, from requirements through high-fidelity design.
- Create user flows, wireframes, and high-fidelity designs in Figma for complex, data-heavy workflows.
- Build and maintain scalable design systems with reusable components and variants.
- Convert Figma designs into production-ready HTML interfaces, and prepare developer-ready UI and component specs for React JS applications in partnership with development teams.
- Support government and enterprise platforms with multi-step, role-based workflows.
- Key projects: HEP Backend Portal (CDL), GF Bot, ITDC (itdc.co.in), Daikin RMS, Firm Focus, OrionHaus — see Key Projects section below.

Web Designer — E2logy Software Solutions Pvt. Ltd.

Apr 2022 – May 2023

Noida, Uttar Pradesh, India

- Built responsive websites and landing pages using Figma, WordPress (Elementor), and Shopify.
- Delivered client sites including Appalachian Arms, Fayven, Warrior Rising, JD Institute, Sweet Melao, and Roorkee Seva.

Frontend UI Developer — Workrush (OPC) Pvt. Ltd.

Jan 2022 – Apr 2022

Noida, Uttar Pradesh, India

- Converted UI designs into responsive HTML, CSS, and JavaScript for dashboards and business websites, with a focus on cross-browser compatibility.

UI Designer & Dashboard Enhancement Specialist — HCL Technologies

Jul 2021 – Feb 2022

Noida, Uttar Pradesh, India

- Enhanced dashboard UI for Microsoft Retail's UHRS HitApp and Bing Shop, redesigning sliders, hover effects, and usability fixes.

Web Designer — Red Lemon Digital Pvt. Ltd.

Jan 2020 – Apr 2020

Noida, Uttar Pradesh, India

- Designed and maintained web pages and layouts for client projects.

- Built and maintained websites, working across CSS, HTML, and JavaScript to fix design and usability issues.

KEY PROJECTS

HEP Backend Portal — City Developments Limited (CDL)

- Redesigned the end-to-end UI/UX of HEP, CDL's central backend platform for managing projects, residential units, homebuyer information, payments, and appointments.
- Built a reusable design system with consistent components for forms, tables, dashboards, and navigation, streamlining complex admin workflows.
- Delivered responsive, developer-friendly designs and interactive prototypes in Figma in close collaboration with development teams.

GF Bot — AI-Driven Hotel Operations CRM & Mobile App UI/UX

- Led end-to-end UI/UX for an AI-driven Hotel Operations Management CRM and mobile app, covering dashboards, admin panels, inspection modules, and staff mobile interfaces.
- Mapped multi-role user flows for housekeeping, maintenance, and management to support AI-driven automation of property tracking, scheduling, safety audits, and incident reporting.

India Tourism Development Corporation (ITDC) — CRM & Booking Platform UI/UX

- Led the UI/UX for ITDC's CRM, booking platform, and mobile app using Figma and a scalable design system, simplifying complex workflows into intuitive dashboards, booking flows, and admin panels.
- Converted the final UI into a pixel-perfect, responsive WordPress website integrated with booking, CRM, and third-party systems.

Daikin RMS — Dashboard and CRM UI

- Built the CRM dashboard UI and implemented it in HTML for an internal management system.

Firm Focus — WordPress UI/UX

- Built the complete website UI/UX and converted it into a fully responsive WordPress site, structured to present services clearly and drive consultation inquiries.
- Focused on usability, mobile responsiveness, performance, and SEO-friendly structure across devices.

OrionHaus — Website & CRM Dashboard

- Led the complete CRM dashboard UI/UX, including user flows, wireframes, and high-fidelity designs in Figma.
- Prepared developer-ready UI and component specs for the React JS interface, with a focus on usability, multi-user workflow, and responsive behavior.
